

Hydraulic Flushing Cabinet (PPL460)

Hydraulic flushing cabinet with remote control and easy lifting attachments, for high pressure cleaning of wells or drainage along the railway.

Internal LED lights make this product flexible for use, day or night. With your own logo welded into the metal, this lockable stainless steel cabinet is complete.

Please contact us to discuss flexible options for your use.

Main Features

- Lockable stainless steel cabinet
- Hydraulic high pressure water pump and gun
- Remote control
- Internal LED light
- Forklift holes
- S45 attachments (optional)
- Your logo welded in cabinet
