

# Rail Trailer Chassis (RTC)

Make flexible use of the different attachments in your fleet. Our Rail Trailer Chassis is adapted for narrow gauge, with easy fork lifting on/off tracks. As shown in pictures, it can be fitted with the same attachments as our Multi Purpose Chassis (MPC). Gloss coated surface enables easy cleaning and maintenance.

Please contact us, to discuss flexible options for your use.

## Main Features

- Eco Rail rail axles with powerful rail wheel brakes
- Choose hydraulic or air brake system
- Rail Wheels: 450 mm UIC profile
- Fork pockets for easy lifting on and off tracks
- Quick change of attachments
