

Dumper Bucket Sidomatic (DBS)

Globally accepted industry standard design and high-strength steel creates a durable dumper bucket ready for any situation. Hydraulic gates on three sides, and top hung pivoted spreader gates, makes it flexible and easy to use.

A productive and profitable accessory to our multipurpose chassis (MPC) and rail trailer chassis (RTC). Please contact us, to discuss flexible options for your use.

Main Features

- Hydraulic lower gates on three sides
- Accessory to MPC and RTC
- Top hung pivoted spreader gates
- Underbody mounted tipping cylinder socket
- Vibrator
- Ball connector sockets
- Base plate and side plates in Hardox 450, 8 and 6 mm
- Folding legs for easy lift on/off and parking
